

Living Hope Bursary Fund

Counsellor Application Form for funding

Counsellors can make an application to us for financial support for up to 75% of the counselling fee for a fixed number of sessions. Once approved our charity will settle our share of the costs in line with the Counsellor's terms and conditions. At the end of the first fixed session period the Counsellor can make an application for an extension for further support.

Our charity's annual giving is limited to an annual counselling budget and bursaries are not offered unless budgeted funds for the full counselling period are available; extensions are also therefore dependent on additional budget being available.
